

## Protectafoam™ - Edge protection

Protectafoam™ is a highly visible foam edge protection / bumper guard system to warn and protect people, machines and inventory against impacts and bumps from sharp edges, corners, beams, ceilings, racking, garage walls, vehicles, obstacles, walls and doors. Manufactured from flexible polyurethane foam, sealed in a tight water-resistant skin, Protectafoam™ ensures corners, edges and dangerous spots are made visible due the coloured stripes.

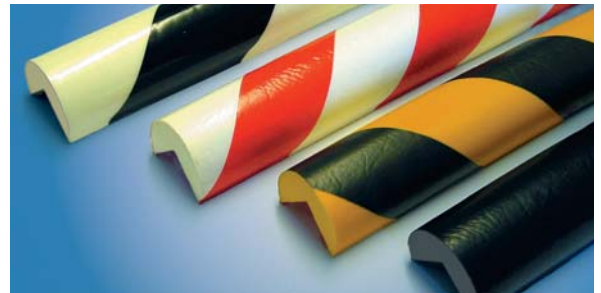

- Manufactured from CFC free polyurethane foam
- Available in black/yellow, red/white, black, black/luminescent and white depending on the profile required
- Profile A, C, D, E, F, & H have a self-adhesive backing
- Profile B can be fitted with or without a PUR adhesive
- Standard lengths are 1m but 5m rolls are also available
- Resistant to temperatures from -40°C to + 100°C
- Fire tested in accordance with DIN 4102 B2

Part of the "Knuffi®" range, Protectafoam™ warning and safety foam profile strips absorb hard impacts and marks dangerous areas in a clear way, helping to lessen the impact of bumps of falls and collisions.

Protectafoam™ foam protectors are suitable for both indoor and external applications in the factory to the garage at home. Protectafoam™ is very flexible and the warning markings are protected against being rubbed off. Supplied as standard in 1m lengths, - other sizes are available on request.

## Profile A - Round Corner Protection

Foam protection profile supplied with a right-angled cut for protecting exposed corners from bumps and damage to and from people or machinery. Supplied with a strong adhesive backing for easy fixing to most surfaces.

PROFILE A	PROFILE (mm)	SIZE	COLOUR	PART No.
		40mmØ x 1m length	Black	041947
			Black/Yellow	041626
			Photoluminescent/Black	041961
			Red/White	041602
