

TapeTile™ Protection Warning Tape

Our cable and pipe TapeTile™, offers far greater protection than ordinary warning tape. TapeTile™ is very economically priced and installation time is greatly reduced as it is easy to transport and simple to unroll. Various thicknesses are available with colours and texts to your requirements.

Heavy duty recycled low density polyethylene sheet with a warning tape laminated on oneside, printed in black.

- More protection than a standard warning tape
- Reduced installation time
- Manufactured in accordance with ENATS 12-23 Issue : 2004
- Various thicknesses available from 1mm upwards
- Tensile strength - >10N/mm²
- Elongation at Break - >300%

Technical Specifications

TEXT/COLOURS	SIZE	PART NO.
	200mm x 2.5. x 40m	018444
	150mm x 2.5. x 40m	018420

UPVC Cable Covers

Rigid UPVC cable covers with or without interlocking fasteners, profiled to provide good protection above cables or pipelines, against the high impact of shovels or picks.

Manufactured in any colour with a warning message to identify the buried service, printed in black to your requirements.

- Permanent non-fading, colour resistant to chemical change.
- Density is higher than water, so that they can be used easily in water-logged ground.

- Lightweight, meaning low transportation and installation costs
- Other thicknesses and sizes available on request.
