

Utility Marker Plates

Luran-S Snap-Fit Signs

Our marker plates are manufactured from LURAN-S plastic, and offer an efficient, economic and versatile system to mark fire hydrants, water valves, sewers, gas valves and street lighting columns in a clear and coherent format.

- Made from non-ageing, non-fading LURAN-S plastic
- Manufactured to BS3251
- Information is displayed by using numeric/lettered snap fit inserts
- Inserts simply clip and lock into the plate

- Plates can be fitted directly onto walls, fences and lamp posts, or alternatively mounted onto concrete, aluminium or fibre glass posts, all available from stock
- Aluminium and Plastic backing plates are also available for additional security
- Plates can be specially hot-stamped with texts & symbols to display additional information
