

Windbreak Fencing

Windbreak mesh offers essential protection for crops, nurseries, buildings and sports courts from destructive winds, driving rain and drifting snow. Simply erected by battening to wooden fence posts the windbreak will offer maintenance free protection. The mesh can also be fitted to windows and doors by simply fixing to an existing frame, or to chain link fencing around sports courts..

- Manufactured from high density polyethylene
- UV Stabilised and rot resistant
- Substantially reduces wind speed without creating turbulence

Straining wires should also be used to add additional strength so that the fence can withstand the wind loads generated by the windbreak.

HEXAGONAL WINDBREAK

HIGH STRENGTH WINDBREAK

SPECIFICATIONS

ROLL SIZE	TYPE	MESH SIZE	WEIGHT	COLOUR	MATERIAL	PART NO.
2m x 30m	Hexagonal	8mm x 6mm	515g/m ²	Black	HDPE	009787
2m x 30m	Hexagonal	8mm x 6mm	515g/m ²	Green	HDPE	008049
1m x 30m	Hexagonal	8mm x 6mm	515g/m ²	Black	HDPE	009800
1m x 30m	Hexagonal	8mm x 6mm	515g/m ²	Green	HDPE	008063
1m x 45m	High Strength	8mm x 25mm	300g/m ²	Green	HDPE	050734

Ultima™ Fencing

Ultima™ fencing is a premium, permanent heavy duty high density polyethylene fencing mesh. Ultima™ is ideal for temporary and permanent fencing applications. The mesh can be easily erected and supported by wooden fence posts for permanent use.

- UV Stabilised and rot resistant
Available in orange/black
- Black available in 50m rolls, orange in 30m rolls.
- Reusable/durable
- Steel pins available
